

Symposia and Lectures in memory of Marianna Lordos

Marianna Lordos, died of breast cancer in early 1988. Since then the C.A.C.S has organised a series of scientific symposia and lectures in her memory, each year on an alternative basis, with the exception of 1992.

The organising of these Symposia and Lectures by the C.A.C.S is part of the Society's effort to provide Cypriot doctors and other professionals and scientists involved in the field of cancer with opportunities for furthering and expanding their knowledge and skills, in order to achieve the best possible standards of care and services for Cypriot cancer victims.

The organising of these events has been made possible by the generosity of Mr Constantinos Lordos and his family, to whom Cypriot medicine especially in the field of oncology already owes immense gratitude.

*1988: 1st Symposium in Memory of Marianna Lordos
Recent Advances in Diagnosis and
Treatment of Cancer*

*1989: 1st Lecture in Memory of Marianna Lordos
Malignant Melanoma.*

*1990: 2nd Symposium in Memory of Marianna Lordos
Recent Advances in the Prevention and
Management of: Gynaecological Cancer,
Urological Cancer and Lung Cancer.*

*1991: 2nd Lecture in Memory of Marianna Lordos
Imaging in Cancer - Current Concepts and
New Approaches*

The above Symposia and Lectures featured only foreign speakers. Indeed some of the world renowned experts and scientists in the field of oncology came to Cyprus because of these events and made presentations and shared their expertise with their Cypriot colleagues. A total of 12 speakers and 26 presentations were featured todate.

1993: 3rd Symposium in Memory of Marianna Lordos

CANCER IN CYPRUS
*Recent Developments in Diagnosis
and Treatment of Cancer in Cyprus*

This year's Symposium is an all Cypriot affair. This was the personal wish of Mr Constantinos Lordos which was shared also by the C.A.C.S. It was believed that the experience gained through the organising of the previous events along with the forthcoming developments in the field of oncology in Cyprus, made this the right time to make this change. This will be the first Symposium in Oncology in Cyprus which will feature only Cypriot scientists. It is hoped that the standard of the presentations and the level of participation will help to improve the image of oncology in general in Cyprus and will increase the confidence of the public about Cyprus medicine.

**The Cyprus
Anti-Cancer Society**

2, Paraskeva Ioannou Street, Dasoupolis,
P.O. Box 5296, Nicosia,
Tel: 02- 497373, Fax: 02-316822

3rd Symposium in Memory of Marianna Lordos

CANCER IN CYPRUS
*Recent Developments in Diagnosis
and Treatment of Cancer in Cyprus*

organised by:

**The Cyprus
Anti-Cancer Society**

Under the auspices of the Minister of Health
